## Department of Electronics and Telecommunication Engineering

- What all skills are needed for doing the project.
- How to select the broad area of work.
- How to select the topic and define the problem.
- How to work towards the goal by systematic approach and regular meetings.

At the end of the webinar students will know to organize themselves and form groups and get their skills defined and decide on the broad area of their work.

No of Participants: 100

Outcome:

1. Students were enriched with the knowledge of Final year project methodology.
2. Certain points related to project time lines were given.
3. Students learnt how organize their work and divide the work amongst themselves.
4. Several sample projects were discussed.
5. Each participant was awarded a webinar certificate.
