ATHARVA
COLLEGE OF ENGINEERING

Department of Electronics & Telecommunication

Report on
One day seminar on "Real time audio video communication"

Dated : 15th February 2018
Organised by : EXTC Department

Time : 10.30am to 1.00pm

Venue : Presentation hall, phase 1 Atharva College of Engineering, Atharva Education complex, Malad Marve Road , Charkop Naka , Malad (W), Mumbai 400095

About the Seminar :

Real time audio video communication is one of the fastest growing technology in market. The seminar covered all the topics included in it. Real-time communication is a means of sharing information and interacting with people through network connections just as if they were face-to-face. Digging into the technicalities a little deeper, it's any live (real-time) telecommunications that doesn't have transmission delays – it's usually a peer-to-peer connection with minimal latency, and data from a real-time communications application is sent in a direct path between the source and destination.

No. of participants: 24 students

Address : Malad-Marve Road, Charkop Naka, Malad (W), Mumbai 400095, Maharashtra, India
