Department of Electrical Engineering

Academic Year: 2018-2019

One Day Industrial Visit to Sage Automation, Naupada, Thane (W)

On 1st March-2019 Electrical Engineering Department has organised an **Industrial Visit to Sage Automation**, an Australian Company deals with PLC and SCADA at Naupada, Thane (W) for T.E students.

Objective of the Industrial Visit:

The objective is to make all students understand the importance, challenges and opportunities in current industrial Automation sector. Also to give the practical knowledge and implementation of control circuits of various industrial automation applications based on various modes of Programmable Logic Controller connection, MATLAB Programming, Ladder Programming and Interfacing.

Automation result in enhanced quality, precision and accuracy, it involves the various control systems operation that enable operating equipment to run on their own, speed for tasks and many more.
